Introduction / Introduzione

The Company

Falcon Medical Italia is the Italian daughter company of Falcon Surgical, a leading manufacturer which for over thirty years has specialized in manufacturing instruments for dentistry, dental laboratories, veterinary, surgery and body care.

Thanks to continuous innovation and the use of certified raw materials, Falcon Surgical has been able to develop such a comprehensive variety of instruments as to satisfy the varying and increasingly severe requirements of an international audience both terms of quality and range..

To date Falcon Surgical is present with own subsidiaries in Germany, England, Italy, Poland.

Manufacturing activities.

All Falcon Instruments are made using state of the art materials and manufacturing techniques which extend to the use of sophisticated metals and alloys such as titanium and nichel titanium.

All manufacturing activities are performed under Quality Assurance conditions as laid forth by the EN ISO 2000 norms (all of which has been certified and is being continuously monitored by recognised international bodies) and in compliance with all laws and directives ruling the distribution of Medical Devices..

Quality Guarantee

As a result of the experience accumulated in over three decades and the stringent quality control tests both in production and at the final stages of manufacturing Falcon Surgical is in a position to guarantee a consistent level of quality of any product in their range.

Customer care

Our customer care department will be glad to help vis a vis any request for assistance.

L'azienda

La Falcon Medical Italia è l'emanazione nazionale di un'azienda leader, la Falcon Surgical, che da oltre 30 anni si è specializzata nella produzione di strumenti per odontoiatria, odontotecnica, veterinaria, chirurgia e bodycare.

Grazie ad una continua innovazione e all'utilizzo di materie prime certificate, la Falcon Surgical è riuscita a realizzare una gamma completa di strumentario capace di soddisfare le più sofisticate esigenze di una platea internazionale sia in termini qualitativi che di gamma.

Ad oggi la Falcon Surgical è presente con proprie filiali in Germania, Inghilterra, Italia, Polonia.

La produzione

Tutto lo strumentario Falcon viene prodotto utilizzando materiali e tecniche costruttive allo stato dell'arte che comprendono in alcuni casi metalli o leghe nobili quali (ad esempio) titanio e nichel titanio.

La produzione avviene in regime di Assicurazione Qualità secondo le norme EN ISO 2000 (come certificato e costantemente monitorato dai riconosciuti organismi internazionali preposti) e nel rispetto di tutte le Leggi e Direttive che regolano l'immissione in commercio dei dispositivi medici,

Garanzia di qualità

Grazie ad un'esperienza trentennale ed ai severi controlli in produzione e finali la Falcon Surgical è in grado di assicurare le più ampie garanzie di qualità costante di ogni suo prodotto.

Assistenza clienti

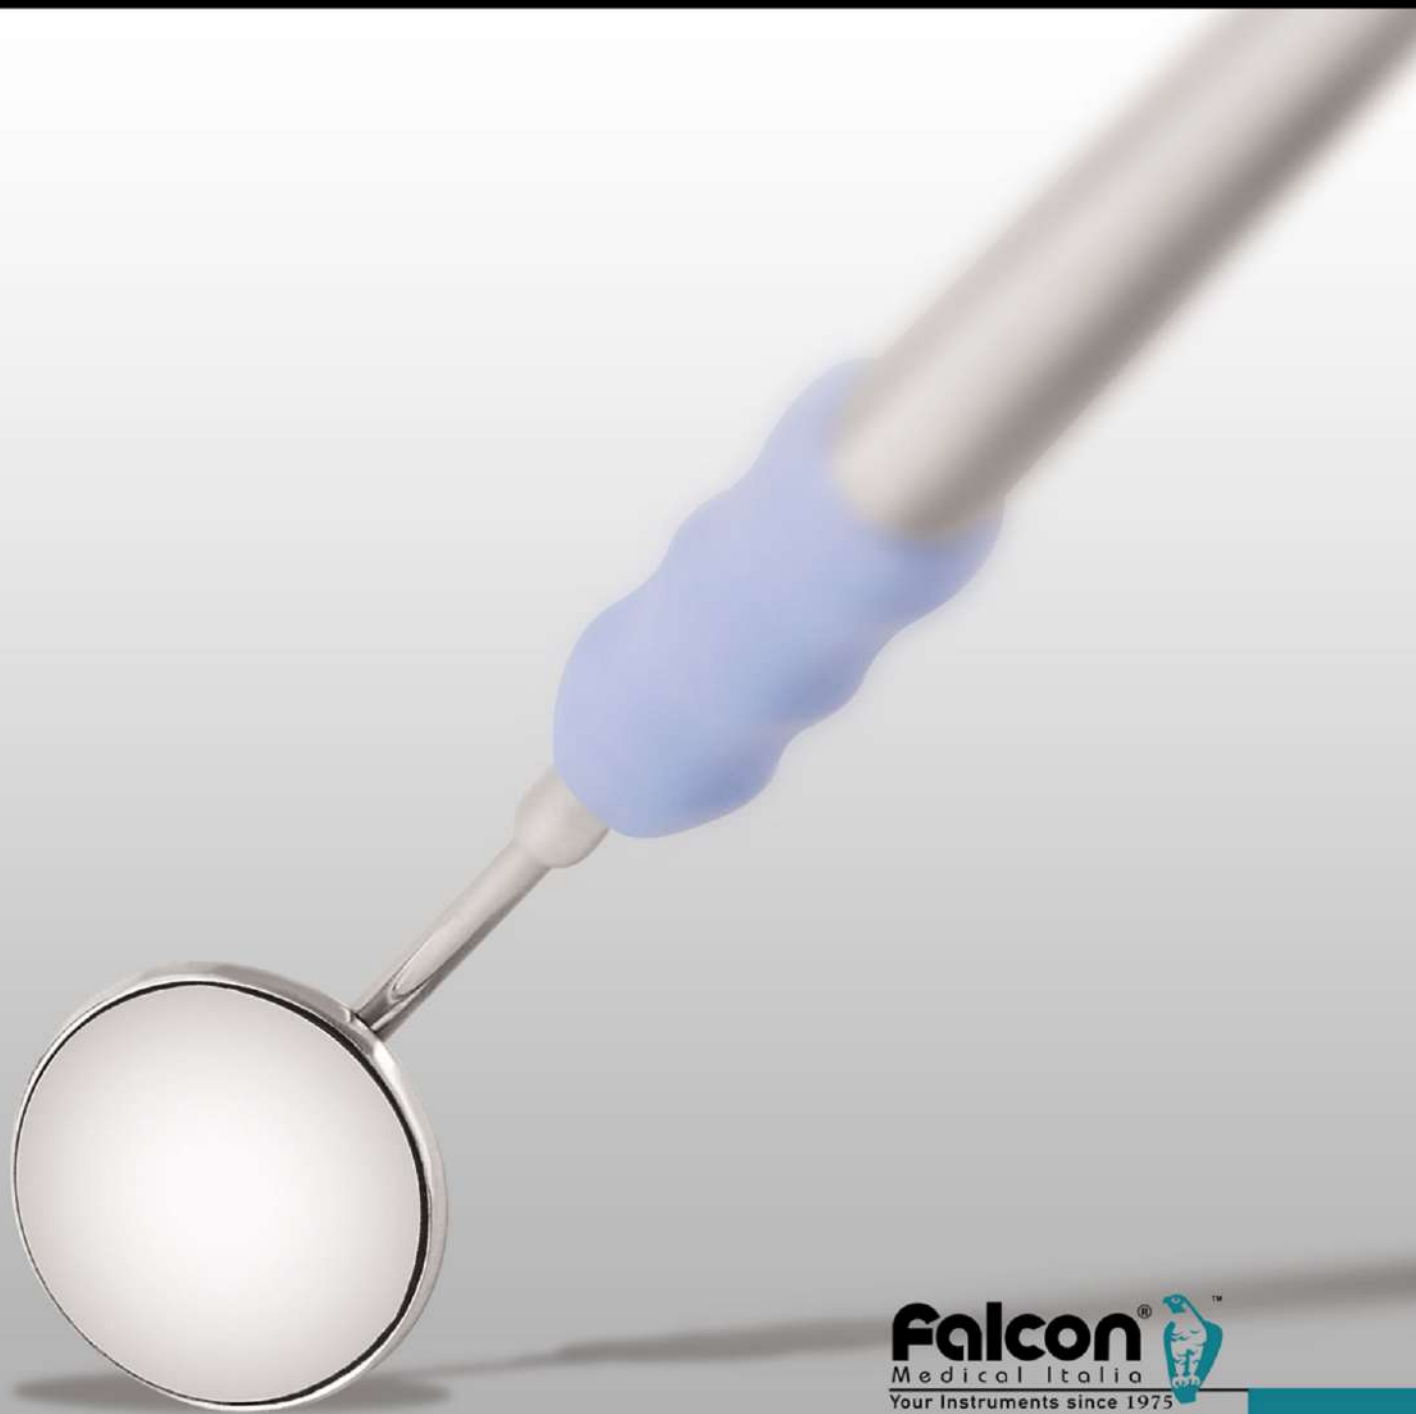

Un servizio clienti sarà comunque a Vostra disposizione per ogni tipo di assistenza o richiesta.

Self Aspiration: How it works

During use, the thumb pressure on the plunger or thumb disc stretches the diaphragm over a small metal projection inside of the syringe nozzle, increasing pressure inside of the cartridge. As the thumb pressure is released, pressure inside the cartridge lessens and aspiration occurs automatically. (Instruction for use are supplied with the product)

Auto aspirazione: Come funziona

Durante l'uso, la pressione esercitata sullo stantuffo o sul disco fa dilatare il diaframma posto sull'estremità della fiala. Questo contribuisce ad aumentare la pressione all'interno delle fiala. Rilasciando lo stantuffo si determina una caduta della pressione che automaticamente si trasforma in aspirazione. (Istruzioni fornite con il prodotto)

DA.120.180
Disc System / A Disco
Metric Thread
1.8 ml.

Disc System / A Disco

Dual self aspiration system:

Dual system syringe has dual aspiration feature to achieve self aspiration.

Aspiration before injection:

Insert syringe in tissue and press Thumb disc to achieve aspiration.

Aspiration during injection:

Automatic aspiration occurs whenever pressure on the plunger is released.

Duplice sistema auto aspirante:

La siringa a disco ha duplice effetto auto aspirante

Aspirazione prima dell'iniezione:

Inserire la siringa nel tessuto e premere il disco per ottenere l'aspirazione.

Aspirazione durante l'iniezione:

Al rilascio dello stantuffo si verifica una aspirazione automatica

DA.320.180
Projection System / A Proiezione
Metric Thread
1.8 ml.

Projection System / A Proiezione

Aspiration during injection:

Automatic aspiration occurs whenever pressure on the plunger is released.

Aspirazione durante l'iniezione:

Al rilascio dello stantuffo si verifica una aspirazione automatica

Caution:
Never disinfect anodized aluminum syringes

Attenzione:
Non disinfettare le siringhe in alluminio anodizzato

Brass Series Syringes Siringhe Serie Ottone

- Made of brass
- Chrome plated
- All Brass series syringes have stainless steel plungers
- Guaranteed quality
- Sterilizable by any method

Brass
SERIES

- Prodotte in ottone
- Cromate
- Tutte le siringhe della serie ottone hanno gli stantuffi in acciaio inox.
- Qualità garantita
- Sterilizzabili con qualsiasi metodo

Intraligamental syringes / Siringhe intraligamentali

- Injects 0.20 ml with every click
- Exact dosage every time
- Lever action for high injection pressure
- Suitable for use with all 1.8ml dental cartridges
- Inietta 0,20 ml ad ogni scatto.
- Dosaggio esatto ogni volta
- Elevata pressione di iniezione grazie all' azione della leva
- Adatta con tutte le fiale da 1,8 ml per uso dentale

Needle Re-cappers
Base Riponi Ago

SS•2000
 Stainless Steel Series

Falcon Needle Re-Cappers are the ideal way to prevent needle stick injuries when recapping needles. Place the upturned needle cap into Falcon Re-Capper and re-sheathing becomes a simple one hand procedure.

Il Falcon Needle Re-capper (base riponi ago) consente di riporre l' ago nel suo cappuccio dopo l'uso evitando spiacevoli ferite. Porre il cappuccio con l'apertura rivolta verso l'alto nel Falcon Needle Re-capper, Il re-instrimento dell' ago nel suo cappuccio diviene un' operazione sicura da eseguire con una sola mano.

Century-line 1908 - 2008

- Tips are made of special grade stainless steel and are TIN coated:

Benefits

- Edge stays sharp longer
- Longer life than ordinary stainless steel elevators
- Improved smoothness for easy sliding in and out
- Non toxic TIN coating

- Ergonomic autoclavable plastic handle
- Available in new and existing best selling models

- **Punte realizzate con acciai speciali e rivestite con Nitruo di Titanio**

Vantaggi

- Maggiore durata dell'affilatura
- Maggiore durata rispetto alle leve in acciaio tradizionale
- Le superfici lisce rendono l'intervento piu' agevole
- Rivestimento TIN atossico

- **Manico ergonomico in plastica autoclavabile**
- **Disponibili in modelli nuovi e tradizionali**

TIN coated bone grafting instruments / Strumenti rivestiti in TIN per la triturazione dell'osso

Titanium Nitride is hypoallergenic. As such it is an ideal material for coating instruments destined for implantology on account of a number of benefits:

- 100% safe when used for bone splitting, punching and grafting.
- highly polished, mirror finish surfaces so that less force is required during bone condensing, punching and splitting
- totally non stick so that no material is left to adhere to the surface of the instrument and placement of bone graft is quicker
- the extremely smooth surfaces of TIN coating allows for easier cleaning/decontamination

Il nitrato di titanio è ipoallergenico. Come tale è un materiale ideale per il rivestimento di strumenti destinati all'implantologia per i numerosi benefici tra cui:

- sicurezza al 100% quando usati per sezionare, frazionare e tritare l'osso.
- le superfici altamente levigate richiedono di applicare meno forza durante le fasi di condensazione, frazionamento e triturazione dell'osso
- le superfici a specchio risultano totalmente non aderenti per cui frammenti di materiale non aderiscono allo strumento e quindi non rallentano la procedura
- le superfici molto lucide consentono una più facile pulizia/sterilizzazione.

Bone mill

- Designed by **Giuliano Lorenzetti**, President of Falcon Medical Italia Srl.
- Simple and practical design
- Supplied with two interchangeable crushing heads to allow it to be used for either mechanical grinding or manual crushing by hammer
- Registered Design

Safety band at 10mm
Indicatore di sicurezza a 10 mm.

TIN coated
Rivestimento in nitruro di titanio

Laser marked size
Misura marcata con Laser

Osteotomi per condensare l'osso Punte conico/convesse

I condensatori di osso vengono usati per condensare lateralmente strutture ossee poco consistenti nelle tecniche di rialzo del seno mascellare. Le punte convesse minimizzano il rischio di perforazione durante il rialzo della membrana di Schneider.

Century-line 1908 - 2008 ■ TIN coated
Rivestimento in nitruro di titanio

Sinus lift osteotomes

Straight concave tips

Used for closed sinus elevation technique, concave semi-sharp tips lift sinus floor and additional bone towards cranial to achieve stable foundation for the placement of implants.

Laser marked at 2mm intervals
 Intervalli di 2 mm. marcati con Laser

Safety band at 10mm
 Indicatore di sicurezza a 10 mm.

Scissors with Tungsten Carbide Inserts
Forbici con Riporti al Carburo di Tungsteno

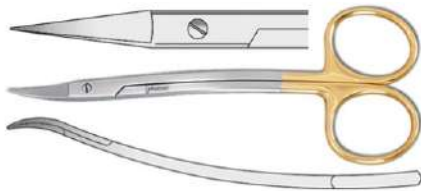

Key Features

- Extremely smooth cutting with less trauma.
- Manufactured from high quality stainless steel and tungsten carbide inserts for longer-lasting cutting edge.
- Gold plated rings.

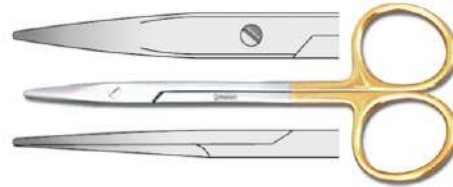

Caratteristiche

- Taglio di precisione atraumatico.
- Realizzate con acciai di elevata qualità e riporti al carburo di tungsteno per mantenere a lungo il taglio.
- Anelli placcati d'oro.

Super-Cut

- Cutting blade horned to "razor" sharpness with opposing blade finished with fine serrations to avoid tissue slippage.
- Extremely smooth cutting with less trauma.
- Manufactured from high quality stainless steel to provide longer-lasting cutting edge.
- Single gold plated ring for easy identification.

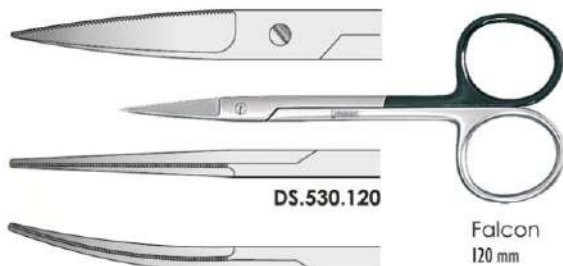

Super-Cut

- Lama di taglio con affilatura a "rasoio" con controlama finemente zigrinata per evitare scivolamenti del tessuto.
- Taglio di grande precisione e quindi atraumatico.
- Realizzate con acciai di elevata qualità per mantenere a lungo il taglio.
- Anello singolo placcato d'oro per una facile identificazione.

Scissors, One Blade Serrated

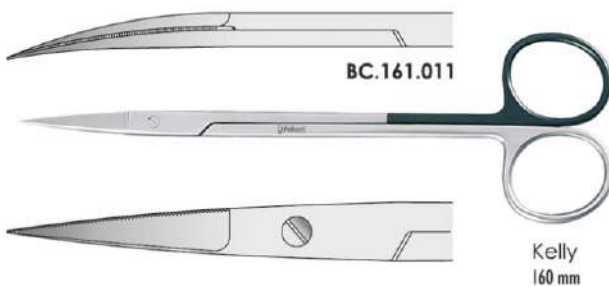

- One blade is with fine serrations to avoid tissue or ligature slippage.
- Manufactured from high quality stainless steel to provide longer-lasting cutting edge.
- Single black ring for easy identification.

DS.531.120

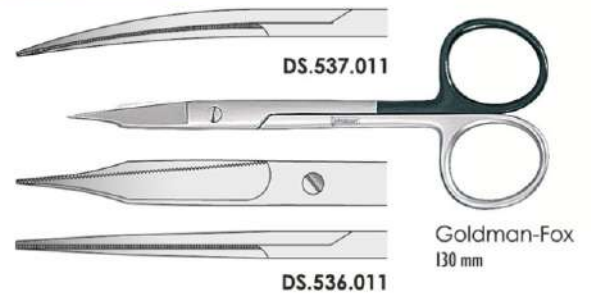

DS.533.120

Forbici con Una Lama Zigrinata

- Una lama è rifinita con finissime zigrinature per trattenerne il tessuto o la legatura durante il taglio.
- Realizzate in acciai di elevata qualità per mantenere a lungo un taglio perfetto.
- Anello singolo nero per una facile identificazione.

Needle Holders with Tungsten Carbide Inserts Porta Aghi con Riporti al Carburo di Tungsteno

Tungsten Carbide inserts are available in smooth or choice of 3 different serration pitches, for use with different size of suture needles as shown in chart below.

Con inserti in Carburo di Tungsteno e sono disponibili sia nella versione 'smooth' (punte lisce) che nella versione con punte zigrinate con 3 diversi passi a scelta per consentire l'uso di diversi aghi per sutura secondo la tabella che segue.

	Serration Pitch Passo zigrinatura	Suture Size Diam. sutura
	Smooth	9/0 to / fino a 11/0
	0.2 Micro	6/0 to / fino a 10/0
	0.4 Fine	4/0 to / fino a 6/0
	0.5 Standard	Up to / fino a 3/0

Falcon Grip needle holders offer secure grip thus safe guiding of needle.

I porta Aghi Falcon-Grip consentono un'ottima tenuta ed un sicuro controllo dell'ago.

Universal dispenser kit for all ratios of 50ml cartridges

Contents:

- 1 x Dispenser
- 1 x Cartridge holder for rectangular flange cartridges (old type)
- 1 x Cartridge holder for round flange cartridges (new type)
- 1 x Plunger for 1:1/2:1 ratio
- 1 x Plunger for 4:1 ratio
- 1 x Plunger for 10:1 ratio

Kit pistola dispenser universale per qualsiasi cartuccia da 50 ml.

Contenente:

- 1 x pistola dispenser
- 1 x porta cartucce con flange rettangolari (vecchio tipo)
- 1 x porta cartucce con flange rotonde (nuovo tipo)
- 1 x stantuffo adatto a 1:1/2:1
- 1 x stantuffo adatto a 4:1
- 1 x stantuffo adatto a 10:1

Bite gauge / Calibro facciale

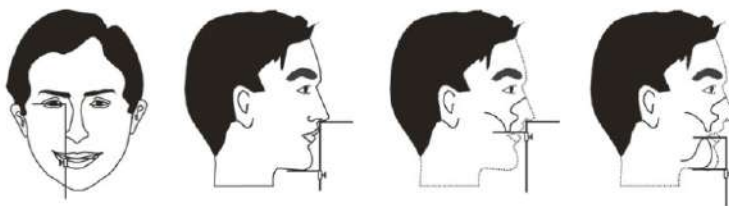

A simple measuring instrument as an aid in the re-establishment of correct facial contour during full or partial denture work.

Un semplice strumento di misura che aiuta a ripristinare il corretto assetto facciale nella esecuzione di protesi parziali o totali.

Slide B is fully adjustable and reversible along shaft A and may be fixed in any position by means of its locking-screw as shown.

il cursore B può essere aggiustato e invertito rispetto all'asse A e quindi fissato in posizione mediante una vite di bloccaggio come illustrato di seguito.

Laboratory

Tungsten Carbide Burs

- Made of high quality Tungsten Carbide
- Precision toothing, superior cutting and durable
- Perfectly concentric
- Available in x-fine, fine, coarse and x-coarse grits
- Color coded according to grit type
- Standard ISO patterns

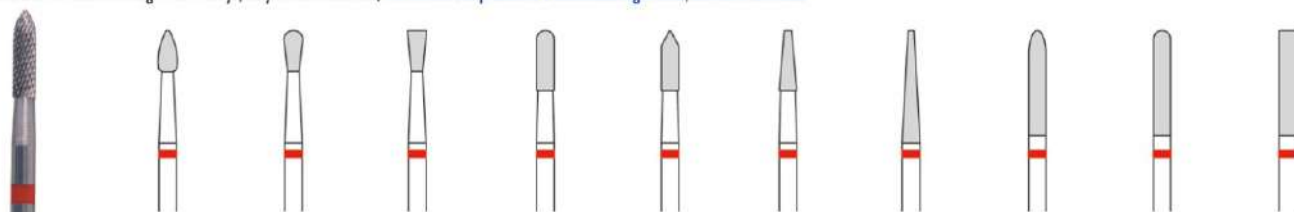

Fresoni al carburo di tungsteno

- Prodotte con Carburo di tungsteno di elevata qualità
- Dentatura di precisione, qualità di taglio e durata superiori
- Perfetta concentricità
- Disponibili con grana in X-fine, fine, grossa, extra grossa.
- Grana identificata secondo il colore
- Modelli secondo gli standards ISO

Cross Cut Fine (ISO-No. 140), Red

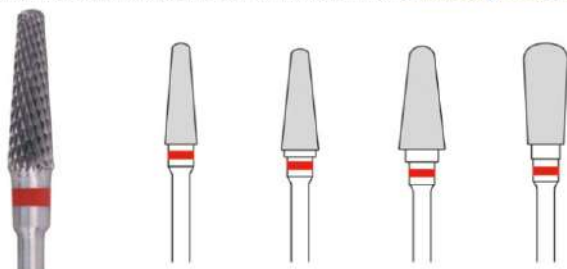

For delicate and difficult trimming of hard alloys, acrylics and ceramics / Per rifinire con precisione e delicatezza leghe dure, acrilico e ceramica

DO.227.120 120 mm
DO.227.135 135 mm
Keat

Buccal tube tweezers
Fine pointed tips firmly grip buccal tube within slot for accurate placement
Curved tips for easy access and maximum visibility
Pinzetta per tubetti buccali.
Le punte fini trattengono il tubetto buccale attraverso lo slot per un posizionamento accurato
La particolare forma delle punte coniuga facilità di accesso con massima visibilità

DO.228.125 125 mm
DO.228.135 135 mm
Falcon

Reverse action buccal tube tweezers
Firmly hold buccal tube within the slot when the tweezer is relaxed and releases it when pressure is applied
Can also be used as reverse action tweezers for placing brackets
Pinzetta per tubetti buccali ad azione invertita.
Una volta rilasciata le punte fini trattengono il tubetto buccale attraverso lo slot per un posizionamento accurato
La particolare forma delle punte coniuga facilità di accesso con massima visibilità
Lo strumento può essere impiegato anche come posizionatore di attacchi ad azione invertita

DO.145.010 **Gum flap retractor**
Useful instrument for lifting gum while banding of second molar stainless steel, autoclavable
Retrattore gengivale
Utile strumento per sollevare il tessuto morbido gengivale ed agevolare il posizionamento delle bande sui secondi molari, In acciaio Inox, autoclavabile

Scaler and band pushing Instruments
Sharp scaling tip on one end and serrated band pusher on the other

Scaler / Spingibande
Da un lato scaler (per asportare p.e. residui di collante) e dall' altro spingibande

DO.130.010

DO.130.014

Disc safety guards set
Protects patients gums, lips and cheeks from rotating discs
Set riparo di sicurezza
Protegge gengive, labbra e guance del paziente dai dischi rotanti

Contents / Contenuto:
1 x Shaft / Supporto
1 x 8mm Guard / Schermo da 8mm
1 x 16mm Guard / Schermo da 16mm
1 x 22mm Guard / Schermo da 22mm

Instruments for interdental stripping Strumento per abrasione interdentale manuale

Manual interdental stripper
Applications:
Opening tight contacts between teeth to fix molar bands
General contouring of a tooth
Removal of calculus from contact areas
Finishing of proximal surfaces

Strumento manuale per abrasione interdentale
Applicazioni:
Apertura di contatti fra i denti per il fissaggio di bande molari
Asportazione di tartaro dall'area di contatto
Finitura di superfici prossimali

DO.298.000

Manual interdental stripper handle only **Manico per abrasione interdentale**
Securely holds all types of abrasive strips **Trattiene positivamente tutti i tipi di striscie**

Abrasive strips / Striscie abrasive

DO.299.041
Coated on one side,
4 mm wide (Pack of 12)
Abrasive su un solo lato
4 mm (12 pezzi)

Instruments for "Fixed Appliance Technique" Strumenti per Ortodonzia Fissa

Instruments for D.B. brackets / Strumenti per attacchi D.B.

Bracket positioning gauge
Facilitate bracket positioning to exact desired distance by measuring its height, from slot to incisal / occlusal surface of tooth
Calibro per il posizionamento degli attacchi
Facilita l'ideale posizionamento dell'attacco mediante misurazione dallo slot alla superficie incisale / occlusale del dente

DO.200.010
Boone

Universal for both .018" or .022" slot brackets
Four different heights for bracket positioning: 3.5, 4, 4.5, & 5 mm
Stainless Steel, autoclavable
Universale per attacchi con slot di .018" o .022".
Consente il posizionamento dell'attacco a quattro diverse altezze: 3.5, 4, 4.5, e 5 mm
In acciaio inox, autoclavabile

Bracket placing tweezers Pinzette per posizionare attacchi

Falcon bracket positioning gauges
Four different heights for bracket positioning: 3.5, 4, 4.5, & 5 mm
Two different models for .018" or .022" slot brackets anodized aluminum, autoclavable
Calibri per il posizionamento degli attacchi Falcon
adatto per slot di .018" o .022" consente il posizionamento dell'attacco a quattro diverse altezze: 3.5 mm, 4 mm, 4.5 mm e 5 mm
In alluminio anodizzato, autoclavabile

DO.205.018 For .018" slot brackets / Per attacchi con slot .018"
DO.205.022 For .022" slot brackets / Per attacchi con slot .022"

Bracket placer for posterior teeth
Very helpful instrument for placing D.B. brackets from bicuspids to molars, the small head offers excellent view
Strumento per posizionare gli attacchi per denti posteriori
Utilissimo per posizionare gli attacchi D. B. dai bicuspidi ai molari. La testa di piccole dimensioni consente un eccellente campo visivo

DO.209.010

Bracket tweezers with slot aligner
Bracket holder on one end and slot aligner on the other. The rear end fits into the bracket slot for accurate placement

Pinzette per posizionare attacchi con allineatore
Un lato trattiene l'attacco, l'altro serve come allineatore di slot. La parte posteriore si innesta nello slot per un accurato posizionamento.

Falcon soft wire, pins and ligature cutters

Box joint construction for longer cutting life without dis-alignment of tips
Caution: Tips of these cutters are specifically horned to cut soft wire, not suitable for hard wires.

DO.571.200
Falcon-Mini
Soft wire and ligature cutter, Mini
Fitted with un-breakable, corrosion resistant and durable stainless steel tips
Mini tronchesino per legature e fili teneri
Muniti di riporti in acciaio duro inox anti-rottura resistenti alla corrosione

25 mm to 38 mm (.010" to .015")

Tronchesini Falcon per legature, perni e fili teneri

La robusta cerniera assicura lunga durata ed evita il disallineamento delle punte
Avvertenza: Le punte di questi strumenti sono affilate per tagliare fili teneri. Se ne sconsiglia l'uso con fili duri

DO.574.100
Falcon-Standard
Soft wire and ligature cutter, Standard
Fitted with un-breakable, corrosion resistant and durable stainless steel tips
Standard tronchesino per legature e fili teneri
Muniti di riporti in acciaio duro inox anti-rottura resistenti alla corrosione

25 mm to 38 mm (.010" to .015")

DO.565.200
Falcon-Micro
Soft wire and ligature cutter, Micro
Fitted with un-breakable, corrosion resistant and durable stainless steel tips
Micro tronchesino per legature e fili teneri
Muniti di riporti in acciaio duro inox anti-rottura resistenti alla corrosione

23 mm to 30 mm (.009" to .012")

DO.585.300

Aderer

3-jaw wire bending pliers.

Precision aligned and contoured tips for consistent bends without damaging the wire.
Pinza con tre punte per piegare.

Punte realizzate con elevata precisione per piegare in modo uniforme senza danneggiare il filo

●	0.36 mm to 0.76 mm (.014" to .030")
■	Max. 0.56 mm x 0.71 mm (.022" x .028")

DO.590.300

Angel

Bird beak pliers with cutter.

Universal pliers with all wire bending and loop forming features of bird beak pliers plus cutter.
Pinza a becco d'uccello con tronchesino.

Pinza universale con tutte le caratteristiche per piegare e formare le anse munita anche di tronchesino

●	0.36 mm to 0.50 mm (.014" to .020")
■	Max. 0.41 mm x 0.56 mm (.016" x .022")

●	25"	25"
■	64 mm	64 mm

DO.592.300

Angel

Bird beak pliers

The most popular and versatile pliers for wire bending and loop forming, the tips are extremely fine for making small loops.
Pinza a becco d'uccello

La pinza più versatile e diffusa per piegare e formare anse

●	0.36 mm to 0.71 mm (.014" to .028")
■	Max. 0.56 mm x 0.71 mm (.022" x .028")

DO.602.300

De La Rosa

Arch forming and contouring pliers, without grooves. Matching concave and convex jaws for contouring and forming archwires without scoring or torquing.

Per formare e sagomare archi.
Le punte antagoniste concavo convesso agevolano la formazione e sagomatura di archi senza introdurre scanalature o torquing

●	0.36 mm to 0.50 mm (.012" to .020")
■	Max. 0.53 mm x 0.64 mm (.021" x .025")

DO.610.300

Falcon

Light wire bending and loop forming pliers.

Long and fine beaks for making smaller loops.
Pinza per piegare e formare anse con fili fini.
Le punte lunghe e fini consentono di realizzare anse molto piccole.

●	0.36 mm to 0.50 mm (.012" to .020")
■	Max. 0.41 mm x 0.56 mm (.016" x .022")

DO.618.300

Falcon

Lingual / palatal arch forming pliers.

Used to form double-back or triple-back bends in either .030" or .036" wire for insertion in lingual sheath.

Pinza per formare archi linguali e palatali.
E' indicata per formare pieghe doppie o triple con fili .030" o .036" per l'inserimento nell'apposita cannula linguale

●	0.76 mm (.030") / 0.91 mm (.036")
---	-----------------------------------

Instruments for "Fixed Appliance Technique" Strumenti per Ortodonzia Fissa

Rectangular arch forming and torquing pliers (Ribbon arch pliers)

Used to form offset and 90° bends on round or rectangular wire. Radiuses on tips edges do not score wire during torquing. Available in three different tip widths, tips are parallel at 0.5 mm opening.

Pinza per formare e applicare torque agli archi rettangolari.

Usata per piegare anche a 90° fili a sezione rotonda o rettangolare. Gli angoli arrotondati delle punte impediscono l'accidentale compressione del filo durante il torquing. Disponibile in tre diverse larghezze di punte. Le punte sono parallele con apertura di 0,5 mm.

DO.615.300 Falcon-Slim

Rectangular arch forming and torquing pliers, 0.64mm (.025") wide tips
Pinze per torquing e per formare archi rettangolari con punte di 0.64mm (.025") larghezza

- Max. 0.30 mm to 0.50 mm (.012" to .020")
- Max. 0.41 mm x 0.56 mm (.016" x .022")

DO.616.300 Falcon/Angel

Rectangular arch forming and torquing pliers, 1.27mm (.050") wide tips
Pinze per torquing e per formare archi rettangolari con punte di 1.27mm (.050") larghezza

- Max. 0.30 mm to 0.56 mm (.012" to .022")
- Max. 0.53 mm x 0.64 mm (.021" x .025")

DO.713.300 Tweed/Angel

Rectangular arch forming and torquing pliers, 1.78mm (.070") wide tips
Pinze per torquing e per formare archi rettangolari con punte di 1.78mm (.070") larghezza

- Max. 0.30 mm to 0.71 mm (.012" to .028")
- Max. 0.56 mm x 0.71 mm (.022" x .028")

Surgical ball hook crimping pliers

Used to crimp surgical ball hooks to arch wire, slotted tip fits over the base of hook for secure hold while crimping, also can be used to crimp stops and posts. Long handles for easy access to posterior region

Pinza per grippare ganci chirurgici e stop. Ideale per bloccare i ganci chirurgici sull'arco, può essere usata anche per il bloccaggio degli stop rettangolari e tondi. Manici lunghi per facilitare l'accesso alle regioni posteriori

DO.621.300 Falcon Straight / Dritta

DO.620.300 Falcon Angled / Ad angolo

Distal end bending pliers (Cinch Back/Tie Back)
Designed to bend distal end of wire extracting through buccal tube away from cheek. Angled tips and long handles allow easy access to posterior region

Tronchesino per ripiegature distali
Ideato per piegare i distali del filo che fuoriesce dal tubo boccale. La forma ad angolo delle punte ed i manici lunghi consentono un facile accesso alle zone posteriori

DO.623.300 Falcon

- Max. 0.30 mm to 0.50 mm (.012" to .020")
- Max. 0.56 mm x 0.71 mm (.022" x .028")

Multipurpose pliers, useful for placement and removal of archwires and auxiliaries. Tips are serrated to securely hold wire, the jaws are bowed and contact only at tips to prevent lip pinching, box joint design for stability.

Pinza multiuso ideale per posizionare e rimuovere archi e ausiliari. Il contatto si verifica solo in punta per evitare di pizzicare le labbra. Le superfici in contatto delle punte sono zigrinate per trattenere in maniera positiva il filo. Snodo costruito per assicurare massima stabilità.

Falcon with tungsten carbide inserts

Real-Series **Dental Models**

Dental models ideal occlusion, adult jaw

- Rigid bases - 32 fixed teeth - Articulated
- Available with transparent or pink bases, life or big size
- Advantage in transparent models is visibility of roots

Modelli dentali - occlusione ideale - adulti

- Basi rigide articolate - Denti fissi
- Disponibili in colore trasparente o rosa, dimensione normale o maxi
- I modelli trasparenti consentono di vedere le radici

Life size / Dimensione normale

Big size / Dimensione maxi

Transparent / Trasparente

Models are shown 1/1 - I modelli sono in scala 1/1

Fig.	Size / Misura	Code / Codice

RV-002	Big size / Dimensione maxi	DT.1200.02

Dental models ideal occlusion, adult jaw ramified / Modelli dentali - occlusione ideale - ramificati

Big size / Dimensione maxi

Fig. RV-009

- Detailed model to explain different diseases and treatments
- Rigid bases - 32 fixed teeth - Articulated
- Shows caries (decayed teeth are removable)
- Shows healthy and decayed pulp canal
- Fitted with implant and crown

- Modello dettagliato per spiegare le diverse patologie e trattamenti
- Basi rigide articolate - 32 denti fissi
- Mostra le carie (denti cariati rimovibili)
- Mostra canali pulpari sani e deperiti
- Completo di impianto e corona

Dental model ideal occlusion, adult jaw

- Flexible bases - 32 teeth with roots - Non-articulated
- Versatile model to demonstrate many dental treatment techniques
- Removable teeth allow fitting of different dental appliances e.g implants, crowns
- Allows demonstration of extraction instruments and practice of extraction techniques
- Superior alternative to wax base models

Modello dentale - occlusione ideale - adulti

- Basi flessibili - 32 denti con radici - Non articolato
- Modello versatile per dimostrare i vari trattamenti dentali
- I denti amovibili consentono l'uso di impianti, corone, ecc.
- Consente di dimostrare gli strumenti e le tecniche di estrazione
- Migliore alternativa rispetto ai modelli con basi in cera

Fig. RV-010 DT.1210.00 Set of 2, upper and lower / Serie di 2 - superiore e inferiore

Real-Series Endodontic Models

Endodontic practice model

- With canal cavities in FDI 11 to 16 and 41 to 46, indicated by silver lines on model
- Very useful model for practicing use of root canal instruments
- Flexible bases - 32 fixed teeth with roots - Articulated

Modello didattico per endodonzia.

- Con cavità canalari in FDI da 11 A 16 E DA 41 A 46 evidenziati dalle linee in argento
- Modello molto utile per simulare l'uso di strumenti canalari
- Basi flessibili articolate - 32 denti fissi con radici

Demonstration Model - Ramified

- Detailed model to explain Endodontic problems and treatments
- Shows caries (decayed teeth are removable)
- Shows healthy and decayed pulp canal
- Flexible bases - 32 fixed teeth with roots - Articulated

Modello didattico - ramificato

- Modello dettagliato per illustrare problemi e trattamenti endodontici
- Mostra le carie (denti cariati amovibili)
- Mostra canali pulpari sani e deperiti
- Basi flessibili - 32 denti fissi con radici - articolato

Orthodontic Models

Desk-Top patient education models

- Ideal for the desk of orthodontists, for explanation of treatment to patients
- Fitted with brackets, wires, ligatures and buccal tubes
- Other devices can also be added i.e. temporary implants
- Model with ceramic and metal brackets to demonstrate the difference

Modelli didattici da tavolo

- Ideali per illustrare il trattamento ortodontico previsto
- Completati di brackets, fili, legature e tubetti buccali
- Possibilità di montare altre applicazioni quali impianti temporanei
- Modello con brackets in ceramica e metallo per dimostrare la differenza

- DT. 1320.01 With metal brackets / Con brackets in metallo
 DT. 1320.02 With ceramic and metal brackets / Con brackets in ceramica e metallo

Orthodontic model, Ideal occlusion, Flexible bases

- Removable 28 teeth, Non-articulated
- Versatile model to demonstrate and practice many orthodontic treatment techniques especially temporary orthodontic implants

Modello ortodontico, occlusione ideale, basi flessibili

- 28 denti rimuovibili, non articolato
- Modello versatile per scopi didattici o pratici di molte tecniche ortodontiche in particolare impianti ortodontici temporanei.

- DT.1315.01 Teeth without roots
Denti senza radici

Typodont Articulator

Typodont Articulator is an excellent demonstration and teaching aid. Articulation allows for a magnitude of adjustments to emulate a variety of malocclusions and skeletal discrepancies. Metal or plastic teeth seat in wax bases for simulation using various orthodontic appliances. The teeth movement can be demonstrated by fitting required orthodontic appliances and placing typodont in hot water or oven for 30 to 60 minutes at 60 °C (140 °F).

Articolatore Typodont

Gli articolatori Typodont sono strumenti eccellenti per dimostrazione e didattica. Consentono una molteplicità di aggiustamenti per emulare una varietà di occlusioni imperfette o difetti scheletrici. Sedi in basi di cera per denti in metallo o in plastica per qualsiasi simulazione usando varie applicazioni ortodontiche. Il movimento dei denti può essere simulato applicando il trattamento ortodontico necessario ed esponendo il Typodont ad una temperatura di 60° C. mediante l'uso di acqua calda o forno.

Medium	GL400AM	GL400M
Large	GL400AL	GL400L
X-Large	GL400AXL	GL400XL

Box of 100 gloves

10 Boxes of 100 gloves

The Aloe Vera Science Council in the U.S. certify that Aloecare gloves contain a gel of pure Aloe Vera. The presence of this gel (which is activated by the heat of the hands) and the very low protein content (> than 50 micrograms of total water extractable protein) make Aloecare a unique product in protecting and maintaining perfectly moist the skin of the hands.

L' Aloe Vera Science Council negli S. U. certifica che negli Aloecare è presente un gel di pura Aloe Vera. La presenza di detto gel (che si attiva con il calore della mano) ed il basso contenuto proteico (> di 50 microgrammi per grammo di proteina estraibile in veicolo acquoso) fanno di Aloecare un prodotto unico per mantenere la pelle della mani protetta e perfettamente idratata.

Soft flex

The BEST Has Even Got Better!
Il MEGLIO è Stato Superato!

Total Protection Nitrile with Aloe Vera

Protezione totale Nitrile con Aloe Vera

- Hypoallergenic, Latex free nitrile gloves
- Moisturizing
- Continuously conditions skin
- Analgesic
- Anti-inflammatory
- Micro rough surface for better grip
- Reinforced wrist band

- Guanti in Nitrile, ipoallergenici, privi di lattice
- Idratanti
- Costante protezione della pelle
- Analgesici
- Antinfiammatori
- Superficie micro ruvida per una migliore presa
- Bordino rinforzato

Powder free nitrile gloves Guanti in nitrile privi di polvere

X-Small	GL801AXS	GL801XS
Small	GL801AS	GL801S
Medium	GL801AM	GL801M
Large	GL801AL	GL801L

Box of 100 gloves

10 Boxes of 100 gloves

Softflex gloves are made of 100% pure synthetic Nitrile and contain gel of Aloe Vera, these offers all the benefits of Aloecare gloves without any latex allergy concerns.

Softflex gloves offers high level of tactile sensitivity, comfort and puncture resistance. (For safety, these gloves split and tear away when punctured, alerting the wearer of potential for contamination.

The Aloe Vera Science Council in the U.S. certify that Softflex contain a gel of pure Aloe Vera. The presence of this gel (which is activated by the heat of the hands) and non protein product (Nitrile) make Softflex a unique product against the irritation and allergies of the hands often associated with the prolonged use of latex gloves.

I guanti Softflex sono prodotti con 100% puro Nitrile sintetico e contengono un gel di Aloe Vera. Essi offrono i benefici dei guanti Aloecare senza i rischi di allergie derivanti dalle proteine vegetali contenute nel lattice.

I guanti Softflex offrono un elevato livello di sensibilità tattile, confort e resistenza alle forature. (Per sicurezza, ove il guanto subisce una foratura, esso tenderà ad aprirsi totalmente avvertendo quindi l'utente di un potenziale pericolo di contaminazione). L'Aloe Vera Science Council in the U.S. certifica che i guanti Softflex contengono un gel di pura Aloe Vera. La presenza di questo gel (che si attiva con il calore della mano) e l'assenza di proteine vegetali rendono i Softflex un prodotto esclusivo contro l'irritazione e le allergie delle mani associate con l'uso prolungato di guanti in lattice.

Mixing tips 1:1 ratio / Puntali miscelatori rapporto 1:1

For 50 ml round flange dual cartridges
Per cartucce con flangia tonda 50 ml.

For 50 ml/75 ml round flange dual cartridges
Per cartucce con flangia tonda 50/75 ml

For 50 ml rectangular flange dual cartridges
Per cartucce con flangia rettangolare da 50 ml.

Mixing tips fine 1:1 ratio / Puntali miscelatori fini rapporto 1:1

For 50 ml round flange dual cartridges
Per cartucce con flangia tonda 50 ml.

For 25 ml round flange dual cartridges
Per cartucce con flangia tonda 25 ml.
